

Business Rules

Project: Aarvii CCTV AMC Management System **Phase:** D0 — Project Foundation Documentation **Source of truth:** requirements-freeze-v1.md (Approved & Frozen, V1)

All rules below are restated from the freeze document with stable IDs for traceability. No rule has been added, modified, or removed.

1. Lead Management (§10)

ID	Rule
BR-LEAD-01	Lead statuses are exactly: New, Contacted, Qualified, Quotation Sent, Negotiation, Won, Lost, Converted.
BR-LEAD-02	Website inquiries automatically create leads.
BR-LEAD-03	Converting a lead creates a Customer, a Site, and an Initial AMC Contract.

2. AMC Management (§6, §8, §9)

ID	Rule
BR-AMC-01	An AMC contract uses the Master + Terms model: one permanent contract record, with renewal history as contract terms.
BR-AMC-02	One site can have only one active AMC contract at a time.
BR-AMC-03	A customer sees only the current active term of a contract.
BR-AMC-04	Admin sees the complete renewal history of a contract.
BR-AMC-05	An AMC plan stores: Price, Visit Frequency, Included Services, SLA.
BR-AMC-06	AMC plans are versioned.
BR-AMC-07	Historical contracts must not change when plans are modified.
BR-AMC-08	A customer may request AMC renewal (§3).

Customer/site structure rules (§5–§7)

ID	Rule
BR-STRUCT-01	One site belongs to exactly one customer.
BR-STRUCT-02	A customer can have multiple sites.
BR-STRUCT-03	A site can have a maximum of three contact persons.

ID	Rule
BR-STRUCT-04	Assets are tracked as summary counts per site (Camera, DVR, NVR, Hard Disk, Switch, Router, Monitor); individual cameras are not tracked.
BR-STRUCT-05	Asset summary may optionally record Brand, Model, Remarks.

3. Scheduling (§11)

ID	Rule
BR-SCHED-01	Visit schedule statuses are exactly: Planned, Assigned, In Progress, Completed, Missed, Cancelled.
BR-SCHED-02	Visits are automatically generated from the AMC plan's visit frequency.
BR-SCHED-03	Admin may reschedule visits.
BR-SCHED-04	Engineer assignment is mandatory.

4. Visits (§12, §13, §15)

ID	Rule
BR-VISIT-01	A visit cannot be completed without: engineer selfie, GPS coordinates, minimum one visit photo, customer signature, and visit remarks.
BR-VISIT-02	GPS capture stores latitude, longitude, and timestamp.
BR-VISIT-03	Supported photo categories: Before, During, After.
BR-VISIT-04	Visit reports follow the approval workflow: Engineer submits → Admin reviews → Admin approves → Customer can view.
BR-VISIT-05	A customer cannot view a visit report before admin approval.
BR-VISIT-06	Engineers can upload photos, videos, and reports, and view assigned work.
BR-VISIT-07	Engineers cannot manage customers, AMC plans, or contracts.

5. Tickets (§14)

ID	Rule
BR-TKT-01	Ticket statuses are exactly: Open, Assigned, In Progress, Resolved, Closed, Reopened.
BR-TKT-02	Ticket priorities are exactly: Low, Medium, High, Critical.
BR-TKT-03	A customer may create a ticket.

ID	Rule
BR-TKT-04	An admin may create a ticket.
BR-TKT-05	An engineer may create a ticket (including during visits, §3).
BR-TKT-06	A customer may reopen a closed ticket.

6. Invoices (§16, §19)

ID	Rule
BR-INV-01	Invoice statuses are exactly: Draft, Generated, Sent, Paid, Cancelled.
BR-INV-02	Every invoice is linked to an AMC Contract Term.
BR-INV-03	A customer can download their invoice.
BR-INV-04	Invoice PDF generation is required.
BR-INV-05	No accounting features in V1.

7. Notifications (§17)

ID	Rule
BR-NOTIF-01	Notification channels are Email and SMS.
BR-NOTIF-02	Notifications fire on exactly these events: Lead Created, Lead Converted, Ticket Created, Ticket Assigned, Ticket Closed, Visit Scheduled, Visit Completed, AMC Expiry Reminder, Invoice Generated, Password Reset OTP, Login OTP.

8. Authentication (§2, §3, §17, §20)

ID	Rule
BR-AUTH-01	Authentication reuses the base platform Auth capability — no duplicate implementation (§20).
BR-AUTH-02	Public Visitors require no authentication; Customer, Engineer, and Admin functions require login (§3).
BR-AUTH-03	Password Reset is delivered via OTP notification (§17).
BR-AUTH-04	Login OTP is a supported notification event (§17).
BR-AUTH-05	Customers can update their own profile and reset their password (§3).
BR-AUTH-06	Access follows the four-actor permission model (§3): customers see only their own contracts, invoices, and service history; engineers see only assigned work; admin manages all modules.

Rule count summary

Group	Rules
Lead Management	3
AMC Management (incl. structure)	13
Scheduling	4
Visits	7
Tickets	6
Invoices	5
Notifications	2
Authentication	6
Total	46
